International Aide Efforts

By now you are all working in groups to prepare a presentation for our inquiry about natural events. Part of the presentation will focus on the aftermath of a natural event and dealing with the disaster.

Who can help?

This week’s homework task is to investigate the role of international aid agencies. Read the information below and watch the clips attached before you complete your homework task. Look at the links below on the blog:

- Relief workers
- Disaster relief worker part 1
- Disaster relief worker part 2

Your task this week is to investigate ONE relief organisation and ‘tell’ your grade all about it. This will be a ‘speaking’ requirement however you may wish to have some type of presentation to support your ‘talk’. Aim for your presentation to be 2-3 minutes long. You may use your iPad to assist your talk however you are to be the main focus during the talk.

Researching and preparing for your talk is your main homework task this week.

Some guiding questions that may assist you include:

- What is the main role of your organisation?
  - What is its logo?
  - Is it an international organisation?
  - Who works for your organisation?
  - How is your organisation funded? Does it get support from the government?
  - Some national/ international disasters your organisation has been involved with.
